

PHILIP MORRIS INCORPORATED
INTER-OFFICE CORRESPONDENCE

100 Park Avenue, New York, N.Y. 10017

To: Dr. T. S. Osdene
From: Fredric S. Newman
Subject: Additives

Date: January 5, 1982

RECEIVED

JAN 6 1982

S. P. POLLACK

This will confirm our discussion on the following two items this morning:

1. You should make available to Stan Temko of Covington & Burling the Cocoa materials that we have prepared. The materials are for use and review by Covington & Burling only. Please tell Temko that he is not authorized to discuss these materials with the other tobacco companies or the Department of Health and Human Services until we have given him additional clearance.
2. You should forward to Temko the literature and memoranda you have collected regarding the ten items on the "Basic Substances List." That material should be forwarded to Temko in two batches. Batch 1 should be copies of published literature. Temko is free to share that material with the other participants. Batch 2 consists of internal research and memoranda. Temko is not to share that with anyone else without further clearance from us.

Fred
